Hey [Redacted] I know your guys are busy but I just got a request from Hydro Area manager [Redacted] if SIPT can pre treat cresta dam bridge deck.

[Redacted]

11:21 AM

And what radio frequency are your guys on? Thanks

[Redacted]

11:21 AM

We are working the rock creek area (poles) but will access the Cresta facilities. We cannot use retardant over the River though

[Redacted]

11:22 AM

Copy that thank you

6:24 PM

[Redacted] please pass on to [Redacted] that we have a PGE SIPT engine posted at the Cresta Dam bridge and they will keep it from igniting. They will be there all night. They have hose on it and are prepared for ember cast. The fire is currently about 100 yards above the tracks across the bridge.
